React | **Express.js** | **Django** | **Tailwind CSS** | **MongoDB** | **PostgreSQL** | **MySQL** | **Flutter** | **PHP** | **Machine Learning** | **Git** | **Docker** | **Figma** | **Postman** | **PowerBI**

UNIVERSITY PROJECTS

InfoPulse - News Feed & New Arrivals — Mar 2025

InfoPulse is a thoughtfully crafted college project aimed at streamlining information flow and delivering real-time updates to users. The platform combines modern design principles with efficient functionality to create a centralized hub for news and announcements. It features an engaging user interface, intuitive navigation, and seamless integration of current events and new arrivals across diverse categories. **InfoPulse** not only enhances access to timely information but also demonstrates a commitment to creativity, practicality, and user-centric design—making it both simple and impactful

PERSONAL PROJECTS

Personal Portfolio

- A modern, responsive portfolio website built with the **MERN** stack featuring dark mode and animations. Mainly features personal and professional achievements and also method to contact via Mail, LinkedIn and Instagram.
- Technologies : **React.js** | **Tailwind CSS** | **Express.js** | **Framer Motion**

KOHA LMS Ticket Generator

- A simple backend project built using **PHP & MySQL** for generating barcode and spine labels by referring to the some of the specific features provided by the administrator.
- Technologies : **HTML** | **CSS** | **JavaScript** | **PHP** | **MySQL**

Club Management System - Rotary Club of Calicut South

- A comprehensive club management system designed to streamline operations, member management, and event planning and membership payment for the Rotary Club of Calicut South.
- Technologies : **React.js** | **Tailwind CSS** | **MongoDB Atlas** | **Stripe API** | **Docker**

ICCIET 2025 Judging Portal (Group)

- A judging portal for the **International Conference on Computational Intelligence & Emerging Technologies (ICCIET) 2025**, enabling judges to securely evaluate and score project submissions online.
- Technologies : **Next.js** | **Tailwind CSS** | **Supabase** | **TypeScript**

Skill Swap - A Peer-Peer Skill Exchange Platform

- A production-ready **full-stack** web application for peer-to-peer skill exchange. Users can teach skills to earn points and spend points to learn from others.
- Technologies : **TypeScript** | **Tailwind CSS** | **MongoDB** | **Socket.io** | **Express.js** | **Docker**

CERTIFICATIONS

Foundation in Data Science and PowerBI — Maitexa Info Solutions LLP - 2025
